DEFENSE MOBILIZATION ORDER I-19

STATINTL

Federal Office Building

[REDACTED]

Pursuant to the provisions of Defense Mobilization Order I-19, I have considered the economic, operational, and administrative requirements for carrying out the functions of the Central Intelligence Agency, of which I am the responsible head, which are intended to be performed in the proposed building and the importance of those functions to national security, and I have determined that these functions are of a nature such as will not permit the use therfor of a dispersed location.
